

RENEWABLE ENERGY PROJECT DEVELOPMENT INTERNSHIP

Building Energy South Africa, a South African subsidiary of an Italian renewable energy independent power producer, currently has a 6 month internship position available.

The position is for an internship in our Project Development Department situated in Cape Town, we are looking for graduates who are interested in the renewable energy sector and with an interest in Project Management. We would prefer that candidates have either a Mechanical or Industrial Engineering Degree.

Building Energy is active across all technologies of renewable energy such as solar PV, onshore wind, biomass and hydro.

For further information on our company the link to our website is www.buildingenergy.it. Applicants should forward their CV's by Monday 28 May

2018 to:

Sharief Harris

Email: s.harris@buildingenergy.it

We look forward to hearing from all interested parties.
