

The 1st Open Colloquium Of The South African Energy Modelling Network (SAEMN)

You are invited to attend the 1st Open Colloquium of the South African Energy Modelling Network (SAEMN).

Continuing from a meeting of modelling researchers and practitioners in July 2012 where the need for SAEMN was identified, the colloquium will focus on:

Formalising the SAEMN (Terms of Reference) – and how the work of SAEMN can influence national energy policy.

Moving towards an integrated South African energy-modelling framework that recognises the more than 70 modelling tools that are available and guides the selection of appropriate tools for decision- and policy-making.

Exploring the access to national data, and the sharing of data between SAEMN members.

As an Open Colloquium, contributions – in the form of short presentations – may be proposed with the RSVP. The program will be finalised and circulated after the 21st of January.

Date	29 January 2013
Time	08:00 - 17:00
Venue	Room 6-55, Engineering Building 3, Hatfield Campus, University of Pretoria
GPS Coordinates	S25° 45' 21" E28° 13' 51"
Parkade	Please use the University Road Entrance
RSVP	Chantelle Janse van Rensburg, chantelle.jansevanrensburg@up.ac.za by 21 January 2013.
Enquiries	Chantelle Janse van Rensburg, Tel: 012 420 5179

We look forward to seeing you at the colloquium.

Prof MW Pretorius

Head: Department of Engineering and Technology Management

Chair: Graduate School of Technology Management
