## Renewable and Sustainable Energy

### *Energy Storage*

The next Discussion Forum on **Energy Storage**, will be held on **Friday 18 July 2008 at 15h00** in the Auditorium of the Paul Sauer Building at the Forestry Department at Stellenbosch University. Dr Johan Beukes of Eskom and Keith Adendorff of First National Battery will introduce the topic where after an open discussion will follow on the different options available for energy storage. One of the challenges faced when using mainly renewable energy is that the energy needs to be stored for those times when the renewable energy source is not available.

All academic staff and students, representatives from the public and private sectors as well as the general public are welcome to attend. There will be a small reception afterwards.
